

*It looks the same on the outside but it is different on the inside!*

**A Microprocessor and more Lightning Protection**

# MARK 220 INFORMER ALARM CONTROL PANEL

Monitors electric power, high and low temperatures, and water pressure

Outputs available: an audible siren, a visual flashing light; a telephone dialer

Reports to the operations manager when a critical need arises

**\* Six Status Indicators:**

- \* Armed / Disarmed
- \* AC power
- \* 1 Zone of **N**ormally **C**losed contacts
- \* 1 Zone of **N**ormally **O**pen contacts
- \* Alarm status
- \* Low AC power line

**\* Two switches for:**

- \* ON or OFF
- \* RESET

- \* Weather and corrosion resistant enclosure
- \* 12-Volt Rechargeable Battery
- \* Monitors low AC line power

## ***Benefits To You...***

- \*Customize your alarm to maximize your building.
- \* Many sensors available
- \* User Friendly
- \* Low maintenance
- \* Stand-alone
- \* Any reasonable number of **N**ormally **O**pen (**NO**) or **N**ormally **C**losed (**NC**) contacts can be monitored.
- \* Environmental controller failure, high temperature, low temperature, low water pressure, thermal stress (**SUFFOCATION** Index), static pressure, water consumption, out of feed or feed spills, fuses and breakers are easily monitored.
- \* The lights quickly identify the status or the problems.
- \* Built-in resistance to lightning.
- \* It can be used alone or connected to a **Z 24** or **Z 28** alarm.
